

ON-OFF MOVING HAND SENSOR ST122

TECHNICAL SPECIFICATION

LAMPS AND COMPONENTS

Technical data:

- Power supply: 220-240V/AC
- Power Frequency: 50/60Hz
- Rated load: ELS/LED – max. 500W
- Power source: 110-240V/AC
- Usage: Infrared Motion Sensor
- Detection range: 5-6cm
- Working Temperature: -20~+50°C
- Detection distance: 5-6cm
- Colour: White
- Protection level: IP20

Features:

- ON/OFF via moving hand. When you move your hands towards the IR sensor, it gets detection and turn on the light. The light will be switched off until the IR sensor detects another movement by hands.
- Power saving
- Available for indoor and outdoor purposes
- Easy installation
