

The Brand of Electricity

Multi-function time relays are suitable for applications where there is need more additional functions requirement and are suitable for universal use in automation, control and regulation or in house installations. ELR-5 is easy for operation and has range of input voltage- from 24 till 240V AC/DC. This relay has 6 time delay functions.

TECHNICAL SPECIFICATION

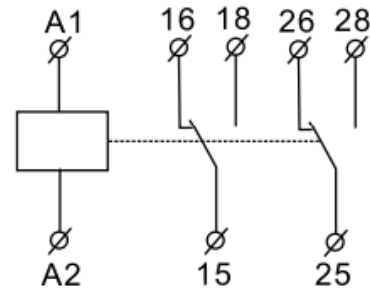

AUTOMATION

ELMARK

The Brand of Electricity

Technical data:

- Voltage range: 24-240V 50/60Hz
- Output current: 5A
- Function: 6
- Output type: 1C-On delay and 1C Instantaneous
- Time ranges: 0.1s-100h
- Function setting: via 4 potentiometers on front panel
- Time deviation: $<5\% \pm 50\text{ms}$
- Repeat accuracy: $<0.2\% \pm 10\text{ms}$
- Voltage error: $\leq \pm 0.5\%$
- Min. breaking capacity DC: 500mW
- Insulation resistance: 100m Ω (500VDCmge)
- Over voltage category: III
- Output indication: red LED
- Protection degree: IP20
- Mechanical life: 1×10^7
- Max. cable size: solid wire max. 2.5 mm² and flexible wire 1.5 mm²

TIME RANGE

Application:

- Control of industrial and home electrical appliances.
- Control of lights, pump, fan and etc.

Variants:

Catalogue number	Type	Dimensions (mm)			Packing/Box (pcs)
		W	H	D	
50156	ELR-5	18	94	64	1/100
